MY HANDS

(1) Look closely at your right and left hands. Draw **large** pictures of both of them, being sure to draw every little detail exactly as it looks. Check carefully to see if you forgot anything. (What about the little hairs, lines, scars, marks?)

Picture of my left hand: **Picture of my right hand:**

(2) Label at least six different things on each picture of your hand.

(3) Make a list of all the similarities between your two hands, and another list of all the differences. Try to make the lists as long as possible. You can use your scales if you like.

Similarities between my two hands:	**Differences between my two hands:**
