

DISEASES

The students of Class IV F at Moongfali High School recorded which illnesses they have had in the last year. Make a bar graph to find out which are the most and least common illnesses.

Table of Illnesses

Student	Illnesses
Gautam	viral fever, diarrhoea
Rajiv	stomach ache diarrhoea
Jatinder	cold, stomach ache
Sarkar	malaria, stomach ache, diarrhoea
Poonam	diarrhoea
Sunil	cold, stomach ache
Priya	stomach ache, viral fever, cold, malaria
Treeya	stomach ache
Anudeep	malaria, stomach ache
Satwinder	cold, viral fever, diarrhoea
Chaman Lal	diarrhoea, cold
Gurvinder	viral fever, cold, stomach ache
Parvaz	cold, stomach ache
Arvind	malaria, cold, stomach ache, viral fever
Sachin	cold,
Parthasarathy	diarrhoea, cold, stomach ache
Babibaba	cold
Tulimuli	stomach ache, cold
Manjit	cold
Hattrik	diarrhoea, cold, stomach ache

Bar Graph of Illnesses

Answer the following questions about the students' illnesses:

- (1) Which was the most common illness? _____
- (2) Which was the least common illness? _____
- (3) Is it easier to find the answers to the above two questions by looking at the data in the Table, or by looking at the Bar Graph? _____
- (4) Which illness did only five students get? _____
